Hub South East Scotland Ltd is delivering the new Duns Primary School project in partnership with Scottish Borders Council and has commissioned Graham Construction as the Tier 1 contractor. Do you or your organisation want to take full advantage of the potential opportunities being offered by working with Graham Construction on this exciting new building project?

There are potential opportunities for individuals to find employment, young people to find training opportunities and for companies to be involved either as subcontractors or suppliers during the main construction works. This could be working directly with the main contractor delivering a Work Package, working for one of the Work Package contractors, or supplying goods and services.

The ‘Meet the Buyer’ Event is on:

Wednesday 12th November 2014 from 3pm – 8pm
At SBC Head Office, Newton St Boswells, TD6 0SA

The event will be hosted by Hub South East Scotland and Graham Construction.

The team will:

- Tell you about the Work Package contents for the new Duns Primary School.
- Explain the procurement policy and how it can help you gain business.
- Provide tips and information on how you could work for Work Package contractors.
- Offer practical advice on how your skills and knowledge could gain you work.
- Take details of individuals for inclusion on a database for passing on to relevant subcontractors if they are looking for candidates in the future.
- Provide advice to young people about any training opportunities that may be available.

For further information on Duns Primary School or to register your interest if you are unable to attend, please contact Michele Halbert on 0131 339 7200 or email Michele.Halbert@Graham.co.uk
