Hub South East has created an efficient, powerful & connected procurement vehicle that demonstrates how a successful partnership can deliver positive results

Partnerships Awards Judges

The experience of working in partnership has been extremely positive

NHS Lothian

I was able to gain valuable work experience whilst completing my apprenticeship. I'm thankful to Hub South East for this first step on my career ladder

HubSE Office Assistant

Hub South East has demonstrated that it is a dependable, trustworthy partner

East Lothian Council

We have fostered a relationship which truly epitomises partnership working

West Lothian Council

It was a natural choice to turn to Hub South East

Scottish Borders Council

Our close working relationship with Hub South East ensured that extremely high quality accommodation was delivered on time and within budget

City of Edinburgh Council

As a charity we're all about social impact, and it's great to see that Hub and its supply chain shares this ethos. I can't overstate the difference this partnership has made

Grassmarket Community Project

The work of Hub South East across the City has brought leadership drive & energy to many Council & community planning projects

City of Edinburgh Council

On the back of work secured through Hub we've been able to employ more staff and take on more work

SME

Hub were our go to guys when it came to getting vaccination stations built quickly & efficiently

NHS Lothian

15 Testimonials

It is a mark of trust placed on the team, that we continue this partnership with professionals that understand the Council's vision

West Lothian Council

The combined experience and input of both public and private partners on this project has been extremely beneficial

NHS Lothian

This was delivered to our specifications and to a very high standard. It was the cleanest handover we have experienced.

Scottish Ambulance Service

Using Strategic Partnering Services before proceeding to the more formal stages of the Hub process, gives both sides clear benefits
